AN IMPROVED SUPPORT FOR CHROMOPHORIC ELEMENTS

5 A device for supporting chromophoric elements
comprises support means (1) for receiving, on an upper
face (24), chromophoric elements (5) that can emit light
under selected conditions, and means for concentrating
light (3) to recover the light emitted by each
10 chromophoric element (5) in a portion of the region
around it and "deliver" that recovered light to a
collecting device.
